The new changes While the drivers manual previously included guidance for motorists stopped by

law enforcement, effective Monday, the changes cover new language explaining what drivers carrying firearms should and shouldn't do during a traffic stop. These are the ordinary things they were doing when they were killed by police. New guidance for motorists carrying firearms include keeping their hands on the steering wheel as the officer approaches, letting the officer know they have a firearm and telling the officer the location of the firearms. Drivers should not reach around inside the vehicle, get out of the vehicle unexpectedly or approach the officer. The new updates also give drivers carrying firearms information on what to expect from law enforcement during a stop. We see this as guidance to law enforcement so that there is consistency across the state of Minnesota. A Warner Media Company. All Rights Reserved.
